

AI QADAM

The AI community infrastructure for Central Asia

Vision & invitation to partner

UZ · KZ · KG · TJ → *Turkic World*

#AIQadam

Why now

Three waves converging in one place and time

AI is everywhere

AI is entering banking, telecom, public services, education and healthcare across the region. Demand for people who can build with it vastly outstrips supply.

The region wants agency

Central Asia can stay a consumer of others' solutions — or grow its own community of people who build. That window is open right now.

Trust is scarce

The market is saturated with hype and sales-driven conferences. An honest venue becomes valuable in itself. Trust can't be bought — and we already have it.

What we've already proven

First event · Tashkent · April 25, 2026

158

sign-ups
in 14 days

80+

companies:
IT, banks, telecom

+78

NPS
0 detractors · 27 responses

100+

in the room —
sold out in 4 days

Depth, not AI 101: 4 talks — from AI agents in compliance and KYC/AML to offensive AI and a memory-enabled bot built for \$5. And 6 people have already signed up to speak at the next event.

The speakers who launched us

Meetup #1 · Tashkent · April 25, 2026

Anton Ustinov UZ

AI agents in compliance

Multi-agent architecture automating
>90% of KYC / AML.

Shokhzod Rakhmatov UZ

Hacking with AI

Offensive security in practice. AppSec
Engineer, BEELAB / Beepul.

Veronika Nasledova UAE

From demo to product

Architecture, mistakes, metrics. CEO &
founder, SAIDE / CandyIze AI.

Alex Kulagin UZ

An AI bot with memory

Validate an idea for \$5. Engineering
Manager, EPAM Systems.

They came not for money, but because they trust the community — and want to share their expertise for the future of the region.

AI QADAM

Community is our main asset

A mixed community — and every stream serves a different part of it

AI PROFICIENCY OF THE ROOM

Beginner chatbots

Intermediate assistants, vibe-coding

Advanced MCP, agents, RAG

Expert architectures, multi-agent

158 respondents · Meetup #1

EVERY LEVEL HAS A STREAM

- **Events**
Where everyone meets — talks, Fuck-Up Nights, hackathons.
- **Education**
Lifts beginners and intermediates with honest, practitioner-built programs.
- **Accelerator**
Turns advanced builders into companies.
- **People**
Channels the community into social impact.
- **Chapters**
For those who want to launch AI Qadam in their own city or country.

The community wants to build, not just attend

How people want to contribute — from their own feedback

HOW THEY WANT TO CONTRIBUTE

Volunteer / contributor help run events, ops, content

Speaker share their own expertise

AI expert mentor, review, advise

Hackathon sponsor back a format, fund a prize

28 post-event responses · plus 1 ready to launch a chapter

86%

chose an active role — not just attending

A community that wants to give back is the engine behind every stream — Events, Education, Accelerator, People and new Chapters.

6 said they are ready to speak at the next meetup

Four streams, one core

What each direction does — and what a partner gets by backing it

AI QADAM GLOBAL · the core: owns brand, principles & methodology, coordinates all chapters

powers four streams

Events

Live

Meetups, Fuck-Up Nights, hackathons — the engine of the ecosystem.

LEAD · Viktor Drukker

PARTNER GETS

Stage and brand presence as a respected participant — never an advertiser.

People

In progress

Community-led social projects. First — Suhbat, AI-assisted support.

PARTNER GETS

Real social impact, plus anonymized insight into the region's hardest problems.

Education

Roadmap

Honest AI-skills assessment and practitioner-built programs.

PARTNER GETS

Early access to a pipeline of verified AI talent.

Accelerator

Roadmap

Startup support: engineering, grants, investor access.

PARTNER GETS

Deal-flow and a first look at emerging AI startups in the region.

The chapter model

Not a franchise — a federation of local communities under one brand

Uzbekistan

Home base. Where Global lives.

Active

Kazakhstan

First chapter. Local Founder in place.

June 2026

Tajikistan

Next on the roadmap.

Roadmap

Beyond

Kyrgyzstan, the Turkic world.

Vision

Growth principle

Everything that can be standardized — brand, methodology, formats, infrastructure — comes from the center.

Everything local — language, partners, context — sits with the local team, which owns the community in its region rather than running a branch office.

Country leads plug into one Global Board — partners reach any chapter through a single relationship.

Where we're going

Momentum already booked — and a destination already set

NEXT FEW MONTHS

June 20, 2026

AI Qadam Meetup #2

Second public event in Tashkent. Speaker pipeline forming from 6 inbound requests.

June 2026

Kazakhstan chapter goes live

First chapter outside Uzbekistan. Local Founder in place, Global Board joining the launch.

H2 2026

Suhbat — first People project

AI-assisted, anonymous mental-health support. Concept and ethics already designed.

THE 3–5 YEAR DESTINATION

Now

A sustainable community across several Central Asian countries. A recognized brand. A working chapter model, ready to replicate.

By 2027–2030

The AI community infrastructure of the region — the entry point for specialists, local leaders, startups and international partners engaging Central Asia's AI talent.

Ways to contribute

Three horizons of partnership — every contribution leaves something with the community

ONE-OFF

Back a single event

Money or resources for one meetup or hackathon — venue, catering, prize pool, infra.

PARTNER GETS

- Recognition as the event's supporter
- A stand and networking as an equal
- Option to co-host a format to our standards

MONTHLY

Keep the rhythm going

Steady monthly support, in cash or in kind — the way HyperApp keeps stream infra running.

PARTNER GETS

- Ongoing presence across the month
- Logo on merch and in materials
- A seat in community initiatives

ANNUAL

Partner with the mission

A yearly commitment, tied to a stream or to a chapter launch.

PARTNER GETS

- Joint research & open publications
- Early access to the talent pool
- Guaranteed slots — for quality content only
- Co-define a stream's programme

Direct your contribution to any stream — Events · Education · Accelerator · People. And every paid activity leaves something with the community — open research, an open event, a shared method.

Where we draw the line

Partners invest in the community — they don't buy the audience

We welcome

- Partners who join as equals, not advertisers
- Joint events, research and initiatives
- Sharing real expertise with the community
- A genuine bet on the region's AI talent

We turn down

-  Using AI Qadam as an advertising channel
-  Trading participants' data
-  Selling access to the audience as if they were buyers
-  Demands for exclusivity over the community
-  Sales pitches disguised as expert talks
-  Partnering for lead-gen instead of contribution

Who already trusts us

Partners who back the community — locally and globally

LOCAL PARTNERS

Uzbekistan

IMPACT.T
the place for people with global ambitions

VENUE PARTNER

Tashkent tech hub where future companies are born. Two branches — HUB & Studio: offices, coworking, meeting rooms and event halls.

HyperApp

INFRA PARTNER

Uzbekistan cloud provider (IaaS / PaaS / DBaaS).
99.999% uptime SLA — the leading provider in Central Asia. Startup of the Year 2025.

GLOBAL PARTNERS

**There could be
your company here**

One trusted relationship that activates across
every country at once.

Kazakhstan

Chapter launching June 2026. First local partners forming now.

Leadership Team

Builders and practitioners — not community managers

Binali Rustamov
Founder Global

- CTO at BEELAB (Beepul, VEON)
- 12 yrs in engineering, 6+ as CTO / Tech Lead
- Fintech & telecom at scale; AI adoption & platform architecture

Aigerim Kambetbayeva
Country Lead — KZ

- Senior ML Engineer at Verigram
- Head of Speech Recognition at CyberNet AI
- 10+ yrs eng, ~5 in ML/AI — Python, TensorFlow, Conversational AI

Volodymyr Tytenko
Co-founder

- Head of Software Development at ABiTech
- Driving AI-SDLC adoption at ABiTech
- SAP Banking, Temenos T24, Mincom Ellipse

Ekaterina Vashurina
Board

- Head of Project & Partnership Mgmt, Ipoteka Bank (OTP Group)
- 5+ yrs at EPAM — launched EPAM Uzbekistan from scratch
- ex-CEO ABC Uzbekistan, first SAP silver partner in UZ
- Founder, Agile Uzbekistan (6+ yrs)

Viktor Drukker
Board (Events)

- Kanban / Agile practitioner & coach (FixFlow)
- Senior PM, Ipoteka Bank — Kanban cut delivery time ~2.5x
- ex-EPAM (Scrum Master / PM), ex-Nokia
- Brings delivery rigor to AI events & formats

LET'S CO-BUILD

Education honest, practitioner-built programs

Accelerator turn builders into companies

People community-led social impact

Advisors welcome mentor & guide

“ In the end, AI Qadam isn't really about artificial intelligence. It's about people.”

“**Qadam**” means **a step forward** in the Turkic languages.

Every strong community starts with people ready to take the first step — and that step belongs to all of Central Asia and the wider Turkic world.

WHAT WE BELIEVE

Honesty over hype

Practice over theory

Quality over quantity

Mistakes are our driver

Community, not advertising

Multilingual by default

People for people
